

A Brief Bio for Dave Mattar of DM Music & Sound:

Since graduating from the Humber College music program in 1989 with honours and the Gordon Delamont award for high achievement in composition, Dave has made his living as a professional musician, teacher and audio technician. He has performed with bands such as Fast Forward, Midnite Hour, Avenue Road, and Kiddy-Okee, while teaching up to 60 private students a week and welcoming opportunities to write and record music for theatrical works by Waterwood Theatre Projects and Shakespeare In Action. Dave also owns and operates **DM Music & Sound**, an independent pro audio company that specializes in sound for bands at weddings, corporate events, festivals, private functions and theatrical presentations. Dave's background as a musician is an extra advantage, helping to bridge the gap between his role as audio technician, the music artists on stage, and the audience.
